Our office will be closed as we take preventative measures to keep each other safe, informed, and healthy in response to COVID-19. We have a collective responsibility to help flatten the curve of the spread of the coronavirus. We must love and protect one another, especially our most vulnerable community members: people without health insurance, in contact with the immigration enforcement system, without paid/earned sick leave, and more. Please don't hesitate to reach out to CTU staff, all together we can prevent panic and take action.
